Course Description:

This course is designed to teach students about the role of a Fire Warden.

You will learn about your proactive and reactive duties of a Fire Warden. Know and adhere to the Fire Safety Order 2005 and the Health and Safety at Work Act 1974. Learn when it is safe to fight a fire and when it is not, as well as how to properly use the various types of fire extinguishers.

Learning Objectives:

- Explain the relevant legislation and requirements for the Fire Warden role
- Describe the primary responsibilities of the Fire Warden position
- Describe the goal and structure of a Fire Risk Assessment
- Summarise the primary proactive responsibilities of the Fire Warden role
- Explain the role and responsibilities of the Fire Warden in the event of a fire
- Describe the duties of a Fire Warden
- Describe the Fire Warden's role in effectively liaising with emergency services

Accreditation:

This course is written in accordance with the **Health and Safety Executive** (HSE) guidance.

The HSE is Britain's national regulator for workplace health and safety.
